BEFORE YOU START DESIGNING

There are three questions you should ask yourself before you start designing your rug, to make sure the rug will fit your home just perfectly.

- What is the main function of the rug?
- How big is the room?
- Where is the furniture placed?

No matter if you're dreaming of a beautiful interior look, warm feet, better acoustics or something completely else, it's important to consider the main function of the rug. Next it's important to get the exact measurements of the room, so you know how big it is. If the rug is too small, it'll turn invisible, and if it's too big it'll seem bombastic. Lastly you should consider how your furniture is placed, and if they should stay in those spots.

FOR THE LIVING ROOM

Depending on the size of your living room and couch, there are nine different sizes we recommend. The suggested sizes fit most homes, but we'll of course customize it to your wishes.

The large spacious living room

FOR THE HALLWAY

Når du designer en tæppeløber eller dørmatte, er vigtigt at finde den rigtige størrelse. Hvis tæppeløberen er for stor, vil din entré se kompakt og roddet ud.

Vi anbefaler 15-20 cm rum fra tæppekant til gulvliste. Dørmatter placeret direkte foran dørkarmen.
